

Flexy Dual Shore – 2.5 Bellows

Standard Vacuum Cups

COMBiFlex

Vacuum Cup Properties

Material	Color	Temp. Range	Shore Hardness
Polyurethane	Dark Blue / Blue	5°– 50°C	30° / 60°Shore

2.5 Bellow Standard Cups

- Our 2.5 family you will find in the sizes from Ø 15 mm to Ø 70 mm .
- Our CombiFlex cups you will find in standard hardness 30/60 shore A and 60 shore A. The two hardness cup 30/60 shore has a bellow in 60 shore and a lip in 30 shore, which makes the cup stable and durable with excellent sealing properties.
- Our "CombiFlex " material is **developed** to meet all the characteristics that is required for a high performance vacuum cup. Normally our polyurethane vacuum cups will last 3-4 times longer than the cups made of rubber or other vulcanized or polymerized materials. This means less "down time" but more "turn over" with increased productivity. Their key characteristics are good resilience or flexibility, high tensile strength with high wear and tear resistance. Comparing to other famous brand names, our product quality is comparable or even better. In general we are also able to keep a much more competitive price.
- The 2.5 family is good for use on specially curved and uneven surfaces. The double bellows suction cup is very good at compensating for a degree of difference in level and curvatures of a workpiece.

Flexy Standard Cups 2.5 Bellows Family
